SUMMARY

Informatics Engineering graduate with hands-on experience as a Web Developer building functional, efficient web applications. Strong foundation in programming, web development, database management, and problem-solving. Quick to adopt new technologies and focused on delivering reliable, user-centered solutions as part of a professional development team.

WORK EXPERIENCE

Web Developer Intern Sep 2025 – Sep 2026

Yayasan Ulil Albab Batam, Batam, Indonesia

- Maintained and improved the school's online admission website by troubleshooting bugs and enhancing existing features to keep the registration process reliable.
- Developed a web-based SPP Payment Management System to manage student data, tuition fees, billing, and payment status, improving the efficiency of payment administration.

PROJECTS

SJ Courier Service Feb 2025 – Jul 2025

Web-based courier and expedition application, Batam

- Designed the UI/UX and built interactive prototypes in Figma.
- Developed a responsive front end using Tailwind CSS and DaisyUI.
- Built customer package delivery booking and payment generation features using Laravel.
- Implemented live tracking using Leaflet and OpenStreetMap.

SBUM Sep 2024 – Jan 2025

Web-based management application for the General Subdivision of Polibatam

- Built a Node.js back-end API to create item requests, manage data, and validate requests.
- Developed a responsive, efficient front end using React.js.
- Organized application data using a PostgreSQL database.
